

Chili Avenue (Route 33A) Bridge Over the Erie Canal Replacement Project

Department of
Transportation

Town of Gates and City of Rochester

PROJECT DETAILS

The project proposal includes removing the existing bridge and building a new structure in its place.

- The new bridge will feature wider travel lanes, new shoulders and sidewalks.
- The project includes safety enhancements and traffic flow improvements on the bridge and at adjacent intersections.
- Traffic will be detoured for up to 18 months as the new bridge is built.
- A temporary bridge will be built for pedestrians and cyclists.
- The Erie Canalway / Empire State Trail under the bridge will remain open during construction.

ANTICIPATED CONSTRUCTION SCHEDULE

Spring 2026 to Fall 2028
